

## RIMIRAD Android Email Setup

Depending on your version of Android your E-Mail App icon may look different. Here are the two most common ones.

With the default Android E-Mail app we will be able to configure your RIMIRAD email your phone.

Type your RIMIRAD email address in and password. Tap manual setup.

2:56 PM

 Set up email

You can configure email for most accounts in a few steps.

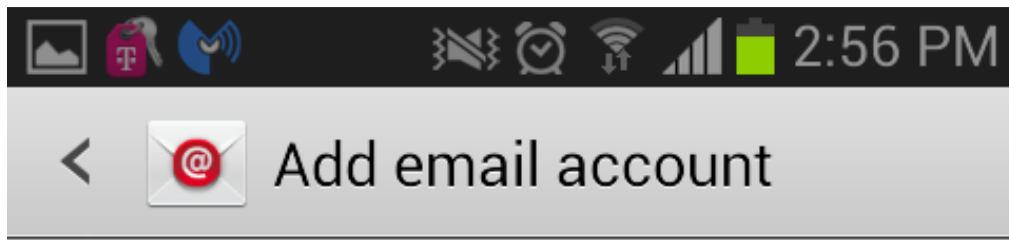

jcalistra@rimirad.com

.....

Show password

Manual setup Next

Choose IMAP account

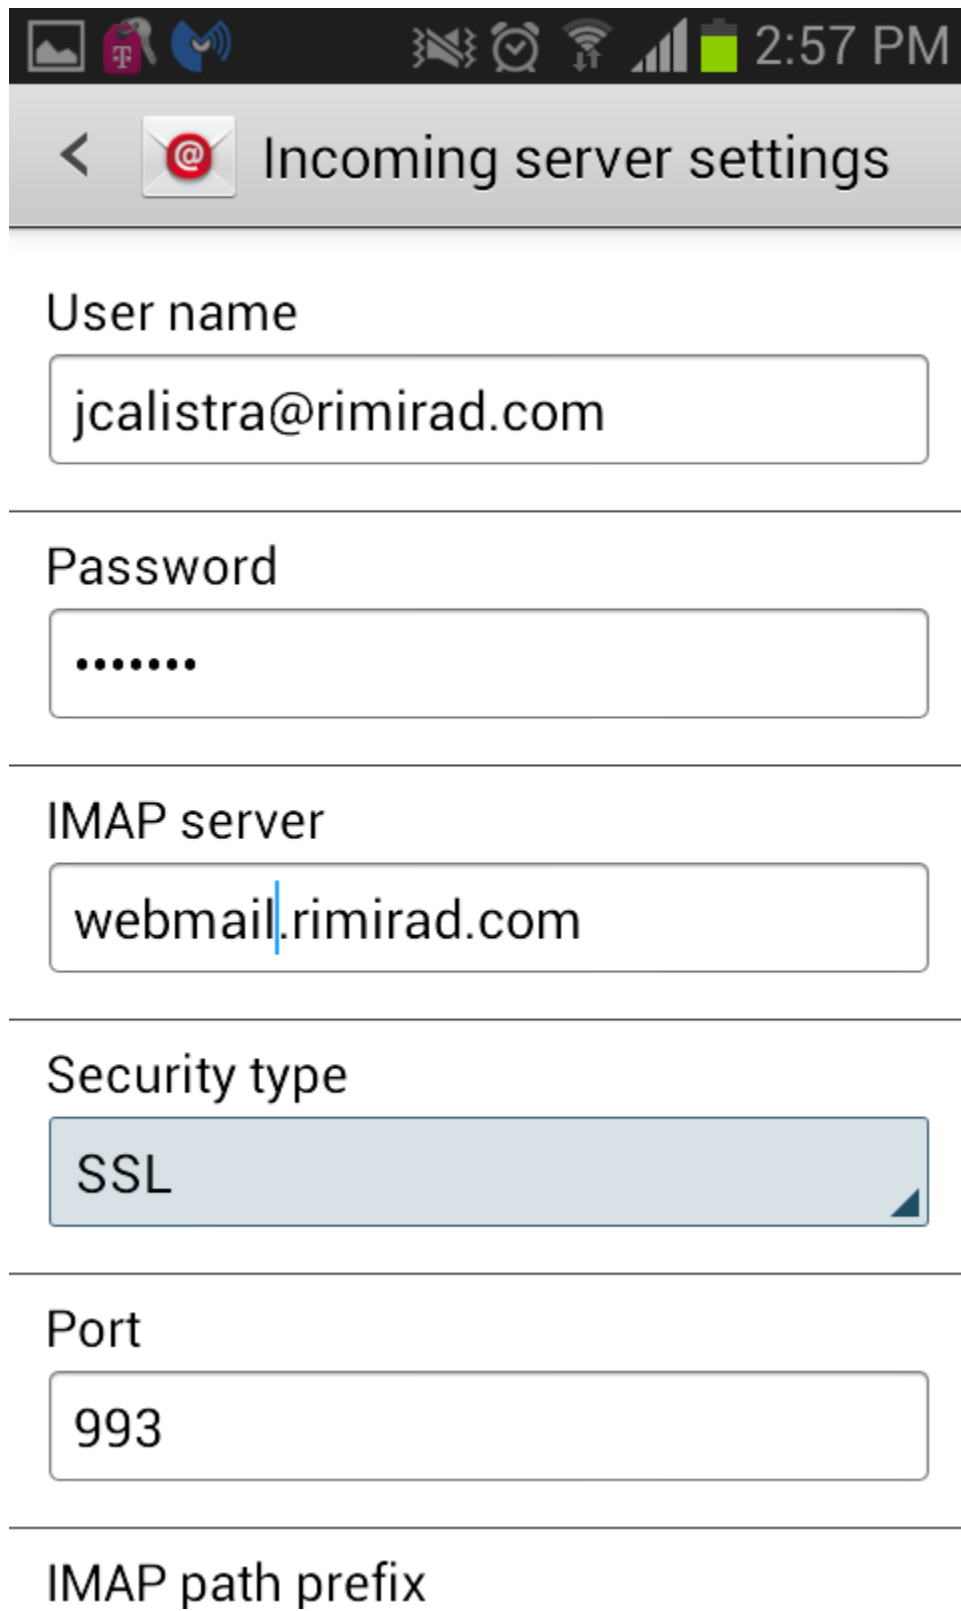

What type of account?

POP3 account

IMAP account

Microsoft Exchange  
ActiveSync

Enter your rimirad email address, password and use webmail.rimirad.com as the IMAP and SMTP server. Make sure to adjust the Security setting to SSL and make sure the ports are 993 for Incoming and 465 for Outgoing.

Hit next and the email setup is complete.

The screenshot shows an Android phone's 'Account options' screen for email setup. At the top, there is a status bar with various icons and the time '2:58 PM'. Below the status bar is a header with a back arrow, an email icon, and the text 'Account options'. The main content area has several sections separated by horizontal lines:

- Peak schedule:** A dropdown menu showing 'Every 15 minutes'.
- Off-peak schedule:** A dropdown menu showing 'Every 15 minutes'.
- Sync Email:** A checkbox with a green checkmark, indicating it is checked.
- Notify me when email arrives:** A checkbox with a green checkmark, indicating it is checked.
- Automatically download attachments when connected to Wi-Fi:** An unchecked checkbox.

At the bottom of the screen is a large, light gray button labeled 'Next'.
