

CT Cystogram Memo

Dear Referring Colleagues,

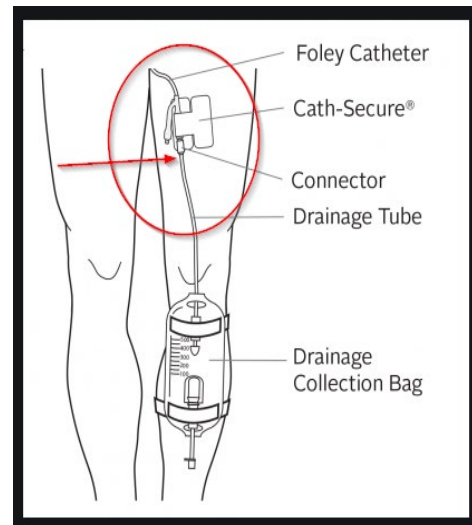

We are pleased to announce that **CT Cystograms** are now available on an outpatient basis at Rhode Island Medical Imaging (RIMI) at all nine of our CT locations.

In order to perform this exam patients must have a Foley catheter bag in place prior to their scheduled exam. Importantly, the drainage line must have a luer lock or 3 port catheter for us to inject the IV Contrast needed for the exam (please see the figures below). Removal of the Foley catheter bag cannot take place at RIMI and will need to be coordinated by your office.

Figure A – Luer Lock

Figure B – 3 Port Catheter

This CT exam requires Prior Authorization from most insurance companies. The CPT Codes that must be approved are **72192** and **51600**. As with any Authorization inquiry, please call our Patient Financial Services Department at (401) 427-7820 with questions. To book this exam please call our Central Scheduling Department at (401) 432-2400.

Thank you for referring your patients to RIMI.

The RIMI Marketing Team.
